Journal of The Electrochemical Society

Volume 139 — 1992

Author and Title Index

and

Subject Index

Using the Indices

Only Letters, Technical Papers, and Review Papers are included in the indices, and titles have been limited to ASCII text. Thus, superscripts and subscripts are not differentiated from ordinary characters, and Greek letters and symbols are spelled out, replaced, or, in some cases, omitted.

In the Author and Title Index, first authors are listed with any coauthors, the issue and page numbers, and the title. All other authors are listed with a reference to the first author and the issue and page number.

In the Subject Index, all the words that have been judged not insignificant in the title are indexed and shown in their context, together with the issue and page numbers.

hin Film Transistor Preparation Reactive Ion Etching of PECVD n+ **a-Si:H.** Plasma Damage to PECVD Silicon Nitride Film and Application to 2 548
A Self-Aligned, Trilayer, **a-Si:H** Thin Film Transistor Prepared from Two Photomasks 4 1199
Amorphous Silicon Dioxide and Amorphous Silicon Nitride Thin Films. II. **a-SiNx:H** Paramagnetic Point Defects in 3 880
n Amorphous Silicon Dioxide and Amorphous Silicon Nitride Thin Films. I. **a-SiO2** Paramagnetic Point Defects i 3 872
Behavior of a SiN:H and **a-SiON:H** Films in Condensed Water 11 3346
An In Situ Volumetric Method for Dynamically Measuring the **Absorption** of Deuterium in Palladium during Electrolysis 5 1342
and Theoretical Study Near-IR **Absorption** Spectra for the Buckminsterfullerene Anions: An Experimental 7 L68
X-Ray **Absorption** Studies of PEO-ZnBr2 Complexes 4 960
red Alloys. I. Ex Situ Studies X-Ray **Absorption** Study of Electrochemically Grown Oxide Films on Al-Cr Sputte 7 1812
Solution **AC** Impedance Study of Anodically Formed Salt Films on Iron in Chloride 6 1622
ski Silicon Wafer Surface during a Simulated 4 Megabit Dynamic Random **Access** Memory Process Effects of Various Pre-Intrinsic and Phosp 5 1431
a Fully Self-Aligned Contact Process for High-Density Dynamic Random **Access** Memories A Stacked Capacitor Cell with 8 2318
Destruction of Halogenated Hydrocarbons **Accompanied** by Generation of Electricity 8 2192
ation on Leakage Current Reduction of Photo-CVD Tantalum Oxide Films **Accomplished** by Active Oxygen Annealing Investig 1 320
Storage Characteristics of Li **Accumulators** at Open-Circuit Voltage above 3.0 V 11 3080
Electrocatalysis of Anodic Oxygen-Transfer Reactions: **Acetate-Doped** Lead Dioxide Electrodes in Sulfuric Acid Media 2 377
The Etching Kinetics of the Illuminated n-GaP in Nitric **Acid** 2 380
Ionic and Electronic Conductivity of Poly-(3-methylpyrrole-4-carboxylic **Acid)** 8 2097
erization of Antimony Tri-Sulfide Chemically Deposited with Silicotungstic **Acid** Charact 1 L16
ion of Propargyl Alcohol during Anodic Dissolution of Iron in Hydrochloric **Acid** A Study of Inhibition Act 12 3428
Illuminated n-InAs and Other III-V Semiconductors in Concentrated Nitric **Acid** A Comparison of the Electrochemical Behavior of 7 1897
Electrochemistry of Chromium-Metalloid Alloys in Sulfuric **Acid** - II 4 1013
ermodynamic and Adsorption Isotherms Analyses for the Inhibition of the **Acid** Corrosion of Steel by Cyclic and Open-Chain Amines Kinetic-T 8 2149
n-Transfer Reactions: Acetate-Doped Lead Dioxide Electrodes in Sulfuric **Acid** Media Electrocatalysis of Anodic Oxyge 2 377
Equilibrium and Transport Properties of Saturated Poly(perfluorosulfonic **Acid)** Membranes The Effect of Temperature on the 12 3421
Electrochemical and Etching Behavior of InP Single Crystals in Iodic **Acid** Solutions 5 1389
Anodic Dissolution of Iron in **Acid** Sulfate under Mass Transport Control 2 446
u Scanning Tunneling Microscopy Imaging of Silicon (111) in Hydrofluoric **Acid** under Potential Control In Sit 10 2825
The Interaction of Sulfuric **Acid** Vapors and Zinc Surfaces 12 3450
Etch-Stop Layers Novel, Organic **Acid-Based** Etchants for InGaAlAs/InP Heterostructure Devices with AlAs 8 2306
ngsten Nuclei for Subsequent Metallization Formed of a Phosphotungstic **Acid-Based** Negative Resist Micropatterned Films of Tu 10 2889
Oxygen Measurements on **Acid-Etched** Czochralski-Grown Silicon Wafers 11 3272
A Reference Electrode to Measure the **Acid/Base** Property of Fused Fly-Ash Condensates 3 L31
a0.47As, In0.52Al0.48As, InP Etch Rates and Selectivities of Citric **Acid/Hydrogen** Peroxide on GaAs, Al0.3Ga0.7As, In0.2Ga0.8As, In0.53G 3 831
lectrodeposition of Silver on Metallic and Nonmetallic Electrodes from the **Acidic** Aluminum Chloride-1-Methyl-3-Ethylimidazolium Chloride Molten S 5 1295
The Role of P in the Anodic Inhibition of an Amorphous Co-20P Alloy in **Acidic** Electrolytes 8 2121
n of Diphenyl Disulfides for Preparation of Oligo(p-phenylene Sulfide)s in **Acidic** Media Anodic Oxidatio 9 2401
frared Spectroscopy Study of the Passive Film Produced during Aqueous **Acidic** Phenol Electro-oxidation A Fourier Transform In 10 2736
a3+, and Sn2+ Electrochemical Properties of Aluminum in Weakly **Acidic** Sodium Chloride Solutions. II. Influence of the Electrolyte Additives 6 1499
Metal Contamination Removal on Silicon Wafers Using Dilute **Acidic** Solutions 6 1751
Chemical Etching of (AlxGa1-x)0.5In0.5P Using Sulfuric and Hydrochloric **Acids** 4 1217
trochemical Properties of Perfluoroalkane Disulfonic [HSO3(CF2)nSO3H] **Acids** Relevant to Fuel Cell Technology Elec 9 2391
ric Acid A Study of Inhibition **Action** of Propargyl Alcohol during Anodic Dissolution of Iron in Hydrochlo 12 3428
EXAFS Study of Terbium **Activated** Zinc Sulfide Thin Films 2 619
Electroless Ni-P Deposition on Silicon with Pd **Activation** 5 1289
n Implantation-Induced Dopant Transient Diffusion, and Dopant Transient **Activation** in Silicon (Boron and Arsenic Diffusion) Modeling of Hig 11 3275
f the Electrolyte and the PbO2 Particles of the Lead-Acid Battery Positive **Active** Mass The PbO2 Particle: Exchange Reactions Between Ions 7 1830
The Lead-Acid Battery Lead Dioxide **Active** Mass: A Gel-Crystal System with Proton and Electron Conductivity 11 3075
mical Impregnation Characterization of **Active** Material Deposited at the Nickel Hydroxide Electrode by Electroche 3 671
Current Reduction of Photo-CVD Tantalum Oxide Films Accomplished by **Active** Oxygen Annealing Investigation on Leakage 1 320
Analysis of Convective Mass Transfer by Potential Relaxation. IV. **Active,** Prepassive, and Transpassive Iron Dissolution at a Rotating Disk 1 177
Films Containing Pendant [Os(bipy)2Cl]+ Moieties The Influence of **Active** Site Loading, Electrolyte Composition, and Temperature on Charge 6 1503
uctural Modifications Improvement of the Photoelectrochemical **Activity** of Chloroaluminum Phthalocyanine Films by Anion Uptake and Str 2 337
Characterization and Catalytic **Activity** of Covalently Linked Bipyridyl Ruthenium OXO Dimers 8 2217
er Gate Oxidation The **Activity** of HF/H2O Treated Silicon Surfaces in Ambient Air Before and Aft 10 2956
Activity of Oxygen in Liquid Sn and BaxCu1-x Alloys 12 3545
Surface Chemistry and Electrocatalytic **Activity** of the HER on Nickel Modified with Heteropolyacids (HPAs) 4 1082
ode Measurement of Catalytic **Activity** Variation for H2O2 Oxidation at a Cobalt Porphyrin Coated Electr 10 2751
Solar Selective Black Chromium Is Deposited in the Presence of Organic **Additive** Reduction of Chromium(VI) When 1 91
A Conductive **Additive** to Enhance Formation of a Lead/Acid Battery 4 L41
Weakly Acidic Sodium Chloride Solutions. II. Influence of the Electrolyte **Additives** Hg2+, In3+, Ga3+, and Sn2+ Electrochemical Properties 6 1499
vestigation of Extrinsic Variables The Nondestructive Evaluation of **Adhesively** Bonded Aluminum Using Electrochemical Impedance Spectros 11 3120
Dielectric Constant of Silicon Dioxides Deposited in the Spaces Between **Adjacent** Conductors The Effective 12 L118
Point of Zero Net **Adsorbed** Charge of Gallium Arsenide 7 1936
In Situ Raman Spectra of Pyridine and Pyridinium Chloride **Adsorbed** on Iron in K2SO4 and H2SO4 Solutions 6 1525
Photochemical Deposition of Pd(0) from **Adsorbed** Pd(II)-Complex Ions 10 2815
Coverage-Dependent Errors in the Coulometric Assay of **Adsorbed** Reactants: Carbon Monoxide on Rhodium (100) 1 147
ents Effect of the Electrode Roughness on the Kinetics of Albumin **Adsorption** at Rotating Disk Electrode Investigated by Double-Layer Capa 1 153
Radiochemical Assay of **Adsorption** at Single Crystal/Solution Interfaces 9 2552
teel by Cyclic and Open-Chain Amines Kinetic-Thermodynamic and **Adsorption** Isotherms Analyses for the Inhibition of the Acid Corrosion of 8 2149
the Double-Layer Capacitance Methods for Measuring the Kinetics of the **Adsorption** of Bovine Serum Albumin onto a Gold Electrode Compa 6 1619
ion Reaction on Ni and Ni-Zn Alloy Electrodes Influence of the **Adsorption** of Organic Compounds on the Kinetics of the Hydrogen Evolut 4 1058
Site Structural Study of Tin-Doped Indium Oxide Thin Films Using **Adsorption** Spectroscopy and X-Ray Diffraction. I. Description of the Indi 1 276
Structural Study of Tin-Doped Indium Oxide Thin Films Using X-Ray **Adsorption** Spectroscopy and X-Ray Diffraction. II. Tin Environment 1 282
ocatalytic Oxidation of Organic Molecules at TiO2 Particles by Sunlight in **Aerated** Water Phot 1 113
Cu-1% Si Films Some Factors **Affecting** Hillock Formation Due to PECVD Processing of Sputtered Al-4% 1 271
Deposition, Structure, and Properties of Cermet Thin Films Composed of **Ag** and Y-Stabilized Zirconia 4 1134
Investigation of Alpha Prime Precipitation in **Aged** Duplex Stainless Steel 4 1001
iting Current and Morphology Selection in Electrodeposition of Branched **Aggregates** Growth Velocity, the Lim 4 1044
Numerical Modeling of the Point Defect **Aggregation** during the Czochralski Silicon Crystal Growth 2 604
The Activity of HF/H2O Treated Silicon Surfaces in Ambient **Air** Before and After Gate Oxidation 10 2956
Fuel Cells Lowering the **Air-Electrode** Interfacial Resistance in Medium-Temperature Solid Oxide 10 L89
Air-Microwave Plasma Etching of Polycrystalline Diamond Thin Films 7 1988
Dry Etching of **Al** Alloy Films Using HBr Mixed Gases 9 2585
Reductive Corrosion of ITO in Contact with **Al** in Alkaline Solutions 2 385
ctors Affecting Hillock Formation Due to PECVD Processing of Sputtered **Al-4%** Cu-1% Si Films Some Fa 1 271
X-Ray Absorption Study of Electrochemically Grown Oxide Films on **Al-Cr** Sputtered Alloys. I. Ex Situ Studies 7 1812
hotochemical Characterization of the Surface Oxide Films of AlPd-Si and **Al-Si** P 7 2032
Etch Rates and Selectivities of Citric Acid/Hydrogen Peroxide on GaAs, **Al0.3Ga0.7As,** In0.2Ga0.8As, In0.53Ga0.47As, In0.52Al0.48As, InP 3 831
Luminescent Characteristics of Tb Doped **Al2O3** Films Deposited by Spray Pyrolysis 1 267
anic Acid-Based Etchants for InGaAlAs/InP Heterostructure Devices with **AlAs** Etch-Stop Layers Novel, Org 8 2306
easurements Effect of the Electrode Roughness on the Kinetics of **Albumin** Adsorption at Rotating Disk Electrode Investigated by Double-La 1 153
ce Methods for Measuring the Kinetics of the Adsorption of Bovine Serum **Albumin** onto a Gold Electrode Comparison of the Quartz-Crystal M 6 1619
A Study of Inhibition Action of Propargyl **Alcohol** during Anodic Dissolution of Iron in Hydrochloric Acid 12 3428
traviolet Photoresist Based on Tungsten Polyoxometalates and Poly(Vinyl **Alcohol)** for Bilayer Photolithography Deep Ul 3 786
A Graphical Ellipsometric Data Reduction **Algorithm** and Its Application in Thin SiO2 Film Measurement 6 1783
emperature Molten Salts **Alkali** Metal Reduction Potentials Measured in Chloroaluminate Ambient-T 3 694
Performance of Single Cells of an **Alkali** Metal Thermoelectric Converter 11 3029
ndirect Electrochemical Processes at a Rotating Disk Electrode: Catalytic **Alkaline** Cyanide Oxidation I 9 2525
